- **Never attend meetings**
- **If you do, be sure to sit in the back so that you can talk to your friends**
- **If you are asked to help with anything, always say that you don't have time**
- **Criticize those that do try and do something, especially if they are volunteers working hard to (1) provide ski trails for you to ski on or (2) coach your children**
- **Never research something before you attack it, in case you become enlightened**

- **Never read anything about the organization, because that could enlighten you too**
- **Get all that the organization will give you...and give nothing in return!**
